In developing the M1 Active, the Alesis engineering team discovered that dual font-facing ports provided the fastest, most coherent and extended low frequency augmentation. Also, the unique offset design of the high frequency driver allows for the flattest frequency and power response in a speaker that offers such wide dispersion.

Alesis M1Active MKII

The M1 Active 520 is the third generation of the acclaimed Alesis M1 Active Series. The M1 Active 520 offers incredible bass and midrange definition and flat frequency response from its high-precision driver and professionally crafted crossover.

A lot of us also used Alesis Monitor One studio monitors — they were reasonably priced and offered performance beyond what most home recordists could afford. In 1999, Alesis brought us the M1 Active series. Now at generation 3, the M1 Active series continues Alesis' proud tradition of professional sound at an affordable price.
