Andrews Brain El Doctorow

Andrew of Andrew's Brain is a neuroscientist and teacher who recounts his life's events to a seemingly sympathetic therapist. He divulges the human tragedies he's endured with a sentient and profound self-awareness that is worthy of Doctorow's choice in casting him as a cognitive scientist.

Andrew's Brain by E.L. Doctorow - Goodreads

The Andrew of Andrew's Brain is a man of my generation, not Doctorow's. He is a neuroscientist and teacher, but his life has fallen apart; Doctorow's novel purports to be a transcription of his interactions with his psychotherapist.

Book Review: 'Andrew's Brain' By E.L. Doctorow - NPR

E.L. Doctorow 's new novel is no " Ragtime ." The author who once orchestrated grand plots involving Houdini, Freud, J.P.
