forecast by item. On the iSupplier page it is possible to display up to 30 buckets at any one time. The different types of buckets are as follows: 1. Past Due: This bucket displays any past due quantities. As per the current Gentex set-up, this field will be '0', however this does not mean there are no 'Past due' orders. 2.

### **Gentex iSupplier Portal External User Guide - September 2014**

Requirement mapping is a one-time setup done at the RFI template level before cut-over, and the mapping gets copied over to every profile audit RFI created, using that template. Since it is a one-time activity, even if the customer needs to map numerous attributes, it can be done with only the one-time effort, and reused repeatedly.
