The Tanker Management and Self Assessment (TMSA) programme provides companies with a means to improve and measure their own safety management systems. The programme encourages companies to assess their safety management systems (SMS) against key performance indicators (KPIs) and provides a minimum expectation (level 1) plus three levels of increasing best practice guidance.

## **OCIMF - Ship Inspection Report Programme**

OCIMF was formed in April 1970 in response to the growing public concern about marine pollution, particularly by oil, after the Torrey Canyon incident in 1967. In the early 1970s, a variety of anti-pollution initiatives were starting to emerge nationally, regionally and internationally, but with little
